DETAILED ACTION

1. Claims 1-6, 8 and 13 are pending.

Response to Amendment

2. Applicant's amendment filed 6/26/03 in response to the previous Office Action (Paper No. 9) is acknowledged. Rejection of claims 1-12 under 35 U.S.C. § 112, second paragraph (Paper No. 9, paragraphs 5a-5h) have been obviated. Even though applicants overcame most of the rejections, applicant's amendment introduces new issue that needs a further rejection.

Objection

3. The claims are drawn to multiple inventions for reasons set forth in the restriction requirement. The claims are examined only to the extent that they read on the elected invention. Cancellation of the non-elected subject matter is required in response to this Office Action. It is required that applicants limit their invention to B = pyridyl ring and A = piperazinyl ring.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 8 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention:

✓ a. In amended claim 1, the phrase "Ring A....each substituent being independently selected from halogen, C1-6 alkyl or an oxo group" is not clear. Are said substituents substituted directly on Ring A or are they substituents on the optional substituents (i.e. mono or di-substituted C1-C6 alkyl or C1-C6 alkoxy)? If not, why are there two separate lists?

✓ b. In claim 13, the phrase "wherein ring A comprises an oxygen substituent" is indefinite. What oxygen substituent? What are covered and what are not? Note "oxygen" is not listed.

✓ c. In claim 13, the term "comprises" is an open-end language.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kahsay Habte, Ph. D. whose telephone number is (703) 308-4717. The examiner can normally be reached on M-F (9.00AM- 5:30PM).
